

Jag Sidhu, Director:

Jag is a professional engineering with degree in mechanical engineering from UBC. In the past 12 years of his professional life he has worked in forestry, municipal, mining and oil & gas industries to learn the importance of innovation, continuous learning, efficiency and standardization in any organization. Jag believes in reaching decisions based on facts as opposed to emotions. He plans to apply his learning from the various industries to our children's education to ensure that all children have equal access to educational resources and those who need them the most get it first.

Jag has three children in elementary school and he enjoys involving his kids in small construction projects around the house, going for walks and teaching them about love and care for the extended family and community. After being on his school PAC for last two years, he is excited to learn from and contribute to enthusiastic team of DPAC.
