How do school districts get funding?

Each year, each school district is responsible to submit a balanced budget and a 5-year facilities and capital plan to the Ministry of Education (MOE). MOE then submits a consolidated Ministry budget from all the school districts as well as its own operating budget to the **Treasury Board**. The Treasury Board Committee consists of the Minister of Finance and governing Cabinet Members (Ministers) and MLAs. Treasury Board staff prepares the annual provincial budget. The government presents the provincial budget in February of each calendar year. The legislature (all MLAs) votes on the budget and once approved, spending can proceed.

Treasury Board Staff and Treasury Board

Treasury Board Staff is responsible for developing and reviewing government's economic and fiscal policies. It provides analysis and advice to Treasury Board (the Cabinet committee responsible for budget and management matters) and to the Minister of Finance.

Advice provided by the division helps the minister and Treasury Board make well-informed decisions on spending management, budget priorities and the government's fiscal and capital plan. Treasury Board Staff regularly converts Treasury Board's direction into strategic and operational plans and makes recommendations that promote the effective and efficient use of public resources.
